2005 - 2006	Academic Internship	Early Intervention Unit - Maternity Hospital, Coimbra
2003 - 2004	Erasmus Student	Università di Firenze, Italy

4. Área de actividade científica 4. Area of scientific activity

Psychology

5. Domínio de especialização 5. Domain of specialization

Domínio de especialização Domain of specializations

Developmental Psychology

Actuais interesses de investigação Present research interests

My thesis focuses on the study of attachment relations and parents-child communication during the pre-school years. Taking in consideration the bridge, recently build, between the attachment theory and other studies regarding language development and autobiographic memory, the main goal of this research is to analyse the connections between attachment expressed behaviour (evaluated at age 3, trough observational measures), it's representational level both in the parents and in the child (assessed trough the production of attachment related narratives) and father/mother-child communication styles. The quality, elaboration and coherence of these communication styles will be measured at the age of 5 using a memory-talk procedure concerning not only a parents-child situation, but also a child-peer scenario. With this research we hope to contribute to the present discussion about the mechanisms underlying the intergenerational transmission of the attachment patterns and it's relation with the social-emotional development.

Outras competências/actividades Other skills/activities

Formation on the Neonatal Behavior Assessment Scale (NBAS) - Barcelona 2006-2007

Short formation on Applied Behavior Analysis (ABA)for the treatment of autism - Lisbon 2008

6. Experiência na orientação 6. Supervising experience

7. Participação em projectos

7. Participation in research projects

Since October 2007 research student at Ispa: PTDC/PSI/64149/2006: Children's Attachment Security, Parental Secure-Base Scripts and Mother-Child/ Father-Child Narrative Styles

February to April 2008 short staying and coloboration with the Human Development/Family Studies Department at Auburn's University (E.U.A.), to learn and apply common research methodologies

February 2007_April 2007. Occupation: IDIBAPS predoctoral scholarship. Main activities: Research project on premature and intra-uterine grow restricted newborn's neurological impairment Institution: Hospital Clínic de Barcelona, Spain

8. Prémios e Distinções

8. Prizes and awards

Ano Year	Nome do Prémio ou Distinção Name of the prize or award	Nome da entidade promotora Name of the granting entity
2004	Merit grant	Universidade de Coimbra
2005	Merit grant	Universidade de Coimbra
